Pollinator Pathways

Rachel Wyffels, the Communication Coordinator of the Northeastern Minnesota Eco-Faith Network, is excited to join us and introduce leaders from around their synod.
The Pollinator Project Steering Group will share their story about the pilot project that has taken place over the past year, which has involved 19 congregations in the NE-MN Synod. They will also share what's next, including two synod resolutions for this year and the upcoming multi-synodical EcoFaith Summit. In this Kairos moment of deep ecological crisis, we are called to pollinate an alternative way of being human for the sake of the whole creation.
We will break into groups during the second half of the hour to encourage one another to take next steps in our own community.

Way to GROW Central States!
The first weekend in March, the Central States hosted a *Wander with God* event at Hollis Retreat Center and invigorated 33 leaders from several churches ready to see Creation Care work through Faith, Hope & Love. Do you want to host a similar event in your synod? We can help!
