July Good Green News

WALK & TALK WITH US!

We had a great team join the ELCA's Building Resilient Communities area at Youth Gathering in New Orleans this past week. We spoke with *thousands* of youth and young adults, hundreds of them pledged to take specific action steps at home, and *many* wrote directly to their representatives! Check out our solar punk re-imaginings by scrolling through our posts on social media and collect specific resources with ideas to use all year: click here.

How many deerflies does it take?

Please join us in prayer and celebration as Pr. Nick Utphall walks the Ice Age Trail and raises funds for our work along the way. See his video above, support his mission, and keep following him by subscribing to the Advent Lutheran MCC channel!
