October Good Green News

Connections Call on October 29th

4pm AK/ 5pm PT/ 6pm MT/ 7pm CT/ 8pm ET

What are Nationally Determined Contributions (NDCs)? How do they fit into the United Nations Conference of the Parties meeting on Climate Change (UNFCCC COP)? Where does faith-based advocacy fit into the picture?

These are some of the questions we will discuss in our NDC Listening Session with ELCA Advocacy's Christine Moffett!

As we quickly approach COP29, participants will learn more about NDCs within the context of our faith-based advocacy on global climate change. We will also give feedback to the Advocacy Team on how the USA should contribute a "fair share" in the conversation around global greenhouse gas emission.

Blessed Tomorrow Ecumenical Ambassador Training

Co-Hosted by AME, ABCUSA, DOC, ELCA, NBCUSA, PCUSA, TEC, UCC, UMC + ecoAmerica

The majority of Americans are concerned about climate change. But, they think only half of those around them feel the same way. As a person of faith, you can help others see they're not alone in their concern and invite them to take action.

Join in the growing number of ELCA Creation Care Ambassadors by attending the **LIVE, virtual Christian Climate Training** on **November 16th, 2024** from 11:30 am - 3:30 pm ET / 8:30 am - 12:30 pm PT.

American workers become more exposed to unsafe outdoor heat every year. As temperatures go up, workers need protection.

Because of this, the Department of Labor and OSHA have proposed the "Heat Injury and Illness Prevention in Indoor and Outdoor Work Settings Rule" that could protect works from hazardous heat, give rest breaks with cooling measures and provide drinking water. See the fact sheet here!

We need your help to show the Biden Administration that there is support for the proposed OSHA rule. Your voice matters! Join us in leaving a comment on the rule.
