An event for sharing good green news!

We are so grateful for all the ways this network has been stewarding God's Creation this year. In a time where many of us feel scared and uncertain, we invite you to spend time sharing hope with us.

We will be gathering as a circle of kindred spirits for an hour to share some of our favorite things (a cherished poem, yummy recipe, respite of a hymn, adorable pet, fortifying scripture, inspiring artwork, or just your precious face!) We look forward to sharing this space with you.

Community in New York.

All ten represented different voices and intersections with Climate Justice, and got to speak to their representatives in DC as well as gain a deeper understanding of how the Lutheran World Federation advocates in the UN.

It was an empowering experience for all involved (including LRC's own Gabrielle!) Please keep this team in your prayers as they return home and tell stories and launch their own advocacy projects!
