

**Lutherans
Restoring Creation**
Cultivating Hope & Healing for All

Your support makes this possible:

Monthly "**Connections Calls**" which invite "green shepherds" throughout the country to join a facilitated conversation about challenges in the congregation, finding local efforts to plug into, and periodic topical issue-based Q&A's. This service has been offered since 2018 and every month there are new revelations, diverse members joining the discussion, and people are listening to the recordings at their convenience.

Personal support to dozens of Lutheran "green teams" to help other ministry groups accomplish their custom Action Plans as outlined in our Congregational Covenant Self-Organization Kit. In 2020 we plan to have covenants churches in *every* synod!

National workshops have trained over 600 participants, who continue to share eco-theology and practical tools with congregations across their region.

Because of YOUR SUPPORT: all of these materials, connections, lectionary commentaries, and Good Green News stories are FREE!

- ___ \$35 Sowing (suggested membership level)
- ___ \$100 – 1,000 Cultivating
- ___ \$1,000 + Harvesting
- ___ Over \$5,000 Sustaining Member

___ I would like give regularly and pledge
\$ ___ every month.
