

My Pledge to God & my neighbors to Care for Creation

I, _____, pledge to think about how my actions impact others and the planet throughout my day. I will learn more about my world, use less energy, and enjoy nature more often.

Some of the following steps I will take include:

- Turn off the lights, TV, radio, fans etc. when I leave the room.
- Shut off the water as soon as I get how much I need.
- Only put on my plate what I know I will eat.
- Recycle everything I can and teach others how to.
- Learn about where my food comes from.
- Throw away less (buy things with less packaging, avoid paper towels, re-use).
- Use reusable containers for food & drink rather than disposables.
- Bring our own bags to the grocery store.
- Play outside rather than using anything that uses electricity.
- Try to find a new living thing outside every day (insect, plant, bird, person).
- Find out about where my drinking water comes from.
- Start a compost pile in my backyard.
- Eat less food that is in plastic and more food that grows its own packaging.
- Discover new places to walk & play outside with your friends and family.
- Learn about what people eat in every different country.
- Share stuff (toys, books, clothes, food) with other people in my community that may need it.

All of these actions will need the whole family's support.

Who else in your home will help you do these things?
